

industries served

ISLIP Flow Control products are designed to exacting specifications, and manufactured to the highest standards, resulting in an extensive range of flow controls that are built for dependability, and years of use. IFC's products are found around the globe. From Arizona to Australia, and Singapore to Saudi Arabia, ISLIP is there. We are the manufacturer of choice for professionals who know that quality, service and dependability equal success.

- Metals & Mining
- Pulp & Paper
- Oil & Gas
- Exploration
- Chemicals
- Water Treatment
- Power Generation

Whether it is a generating station or water authority in North America, a refining plant in Chile or offshore explorations in Vietnam, IFC delivers solutions.

For Strainers, Valves and Pipeline Accessories.

Our Knowledge Sets Us Apart.

ISLIP Flow Controls is the industry's answer for full-service solutions. We are the knowledge leaders you can depend on to resolve your flow control challenges in the industrial, oil & gas, petrochemical, HVAC and commercial industries.

Working with us means working with a front-line business partner you can trust. It is a customer-focused approach that has made us the manufacturer of choice for Strainers, Valves and Pipeline Accessories. It's exacting professional performance

that delivers quick response and exceptional service. And, it is the benefit of intelligent people who have the experience and expertise to create workable solutions tailored to you and your business, project by project.

what sets us apart?

At ISLIP Flow Controls, we have built an entire company on our dedication to quality. It isn't just our superior products and competitive prices that have made us the manufacturer of choice for users on five continents, it is so much more.

"They speak our language. We like their expertise and understanding of the business..."
Vanessa Nugent, Fluor Canada for the Imperial Oil ULSD Project

It's superb personal service, exacting detail, and a precise knowledge of the industries we work with. We offer solutions that are as individual as we are.

"ISLIP has the answers. They're not afraid to take on the challenge of new applications..."
Amy Ng, Delta Fountains

It's the kind of dependable advice and prompt response that's there when you need it most. With us, expertise and a new solution are just a call away.

"ISLIP offers instant, direct contact..." FMC Smith Meter, Guy Roussel-Dupre

And, it's commitment you can count on. We stock what you need; we ship on time.

"We often get same-day pick up. There's a good inventory. They're easy to work with..."
Greg White, Industrial Mine & Pipe

who we are

our promise

With over 30 years experience, professionals have made ISLIP Flow Controls their number one choice for Strainers, Valves and Pipeline Accessories.

Since founder David Islip formed the business, we have maintained a family company with family values: integrity, commitment to superior service, dedication to solving problems and a continuing responsibility to develop the best products in every market we serve. It is this kind of expertise that allows us to give our customers the buying benefits of a big business and the personal attention of small enterprise.

the ISLIP network

Choosing ISLIP Flow Controls means selecting the style of service you prefer most – working directly with the in-house experts at our Head Office or dealing face-to face with our appointed agents. No matter the choice, you can depend on industry experience and the kind of know-how it takes to solve the toughest problems.

Rest assured local IFC Master Distributors and Representatives are trusted professionals, who carry the face of ISLIP Flow Controls into every business they visit, providing the links that help us play a vital role in day-to-day success in markets across the country, and around the world. They serve as support to Specifiers, Contractors and Engineers, and work on our behalf to introduce IFC products to new markets. With a ready-to-access inventory of our entire product line, your local ISLIP Master Distributor can make a genuine difference on a project when dollars and cents really count.

Islip Flow Controls has redefined the meaning of exceptional quality and outstanding service. In fact, we have made it a part of how we do business every day. It is our Continuing Commitment to Customer Care and it means we go the extra mile to make sure we always exceed your expectations.
